Introduction

Infinity Mining Network is an innovative revolutionary multichain ecosystem designed to bring blockchain technology to the next billions of users.

Our mission is to work with cashless finance that operates on its own dedicated blockchain system.

Vision

Vision

Our aim is to promote Crypto Currency in a good way and increase awareness about Cash less payment method to everyone from city to village level. Infinity Network started with this aim and we have tied up with few e-commerc who will accept IN Pay as a payment method.

We will take various initiatives to increase people's awareness and knowledge about Crypto currency

I will teach the fallen people to keep pace with the current era

With this goal in mind, Infinity Network has started working with its own BlockChain to manage the work well. We will soon reveal more about it. You can find out more about this in our Telegram support group.

IN Coin Utility

Coin Utility

IN Coin: The token of the IN mainnet. The token symbol being \$IN

Transaction Fees

Every transaction made on the IN network incurs a fee. This fee is paid using IN Coin.

Governance

IN Coin's empower holders to vote on crucial network governance decisions, offering them a say in the network's future.

The governance utility of IN Coins encourages a decentralized and democratic decision-making process, ensuring the network evolves according to the community's interests.

Earning from the Economy of Things

IN Coin can be used to provide liquidity for Machine DeFi, and to vote on dApps and machines, allowing token holders to share in the network's earnings.

This use case turns the IN coin's into a source of Yield for its holders, providing a financial incentive to participate in the ecosystem.

Payment gateway

We have worked with IN pay to modernize the payment system to make all business payments safer and more secure through Infinity Network (IN) Coin.

Which will be completely secure and safe using Blockchain technology.

IN Service

Infinity Network Service

Our multichain ecosystem

Discover the power of our multichain ecosystem, designed for the next billion users. With seamless integration of various blockchains, we offer a versatile platform for various applications and evaluations. And we will use our coins as payment and send them around the world E-commerce, through various payment gateway.

NFT

NFT stands for "Non-Fungible Token." It's a type of digital asset that represents ownership or proof of authenticity of a unique item, piece of art, collectible, or other digital content using blockchain technology. NFTs have gained popularity in the art and entertainment industries as a way for creators to monetize their digital works and for collectors to own unique digital items. Each NFT is indivisible and cannot be exchanged on a one-to-one basis like cryptocurrencies such as Bitcoin or Ethereum, Infinity network which are fungible.

Payment gateway

We have worked with IN pay to modernize the payment system to make all business payments safer and more secure through Infinity Network (IN) Coin. Which will be completely secure and safe using Blockchain technology
